Base Ball at the Gayety.

The Nokes improved "Electrascore," to be shown at the Gayety Theater Thursday. April 17, during the game of the Washington base ball club with the New Yorks at New York, will be pleasing to the many fans who are unable to go to New York to see the game. This wonderful board reproduces the players in action, and the audience becomes at times just as excited and enthused as when looking at the actual game on the field. The scoreboard demonstrates every play from the sound of the gong until the last man is called out by the umpire. The board was a great success last season, but many improvements have been

made, and it is now almost perfect.
